

**Paducah Infrastructure Support Services  
Request for Proposal DE-SOL-0006383  
Questions and Answers #326 and 333 (Revision)**

<b>No.</b>	<b>Industry Question</b>	<b>DOE Answer</b>
326.	Since no responses have been provided to any questions to date, we request an extension of one week to the question submittal deadline following receipt of DOE responses to ensure those responses do not identify other areas requiring clarifications.	All questions received by October 30, 2014, have been answered on the procurement website. The Q&A period will be reopened through 12:00 noon Eastern Time on December 1, 2014, and subsequently closed, to allow Offerors to submit questions to clarify answers to prior questions and to clarify changes in the RFP amendments. It is not the intent of the Government to reopen the Q&A period to address new questions that should have been provided during the initial question submittal period ending October 30, 2014. Any additional questions submitted shall reference by number the prior question requiring clarification, or the RFP Amendment Number and revised RFP section. DOE reserves the right to not provide responses to questions submitted after the December 1, 2014 deadline above.

<b>No.</b>	<b>Industry Question</b>	<b>DOE Answer</b>
333.	<p>As of October 30, no answers to questions concerning RFP No. DE-SOL-0006383 have been posted. Because of the firm fixed price nature of the procurement, answers to questions are vital to the proposal response. Will the government please extend the due date to at least 21 days after the questions are answered in order for the Offerors to incorporate the guidance and answers into their proposal response? Thank you.</p>	<p>All questions received by October 30, 2014, have been answered on the procurement website.
